- Provide L3 support, resolve critical production issues, and collaborate with stakeholders on business requirements.
- Tech Stack: Java, Spring Boot, Angular, SQL, REST API, CI/CD.

Senior Engineer

L&T Technology Services

02/2021 - 05/2022

Bengaluru, India

Achievements/Tasks

- Developed UI applications for Telecom Project using React JS.
- Integrated front-end interfaces with back-end APIs built on Spring Boot Microservices.
- Automated test cases using Jest and React Testing Library, improving code coverage by 20%.
- Tech Stack: React.js, Redux, Spring Boot, Jest, REST API, CI/CD.

Software Engineer

Newgen Software Technologies

04/2019 - 01/2021

Noida, India

Achievements/Tasks

- Created robust Java algorithms and JavaScript validations for the Bank Guarantee module.
- Fixed UI bugs, enhancing application performance and user experience.
- Built MIS dashboards using Oracle SQL to improve reporting accuracy.
- Tech Stack: Java, Angular, Oracle SQL, JavaScript.

Software Developer

Silverskills Private Limited

05/2017 - 04/2019

Gurgaon, India

Achievements/Tasks

- Automated data entry processes using Java and Selenium, reducing manual errors by 25%.
- Developed a financial software web application utilizing Node.js, Express.js, and React.
- Built dashboards using D3.js to visualize financial metrics.
- Tech Stack: Node.js, React, D3.js, Selenium.

EDUCATION

Bachelor of Engineering (Electronics and Communication)

Model Institute of Engineering and Technology

09/2012 - 09/2016

Jammu, India

SKILLS

Java	JavaScript
Oracle SQL	MySQL
REST API	Angular
React	Spring Boot
JBoss	Maven
Visual Studio Code	IntelliJ
Eclipse IDE	Git
SVN	Postman
Agile	Jira
GitHub Copilot	

PROJECTS

Key Projects – CACIB, Singapore (05/2022 – Present)

Data Regulatory Reporting (Transformation) (08/2025 - Present)

- Designing and developing Spring Boot microservices to optimize, validate, and enrich regulatory data, ensuring compliance and improving reporting efficiency

Trade Finance & Global Trade Portal (06/2023 - 08/2025)

- Delivered front-end/back-end modules in Angular & Spring Boot, and developed Bank Guarantee workflows, enhancing transaction processing and client servicing.

Digital Transformation (06/2023 - 08/2025)

- Built UI and microservices to enhance OCR accuracy, automating document handling and reducing manual intervention.

Sky, London – Migration & User Management (02/2021 - 05/2022)

- Developed UI in React.js and integrated BPM APIs to deliver a robust user management module, improving scalability and user experience.

ICICI Bank, India – Bank Guarantee (11/2019 - 01/2021)

- Designed and developed front-end and back-end modules for Bank Guarantee systems, reducing processing errors and turnaround time.

ACHIEVEMENTS

Udemy: AI with GitHub Copilot for Java & Spring Boot Developers

Google Cloud: Java Microservices with Spring Boot and Spring Cloud

HackerRank: React JS Certification

Aptech: Java Smart Professional
